mustafa-essam212

Seeks to obtain a position as Full Stack Developer where i can utilize my skills in design, Programming, Analysis and implementation of web pages & web applications.

## Projects

**2021**
### EagleSound (MERN)
I am noticed that soundcloud is not responsive .. so I worked on EagleSound which will be cloning of Responsive soundcloud and the user has all access to Register & Login & Follow Artists & Search on tracks & Upload Tracks.
https://eaglesound.herokuapp.com/

**2021**
### Marvel Shoes "E-Commerce" (MERN).
Marvel Shoes is an E-Commerce web application which has an administrative area which gives the Admin full access to manage products, Chat system between Client and Admin, Changing order's status by Admin And Possibility to submit comments by Client.
https://marvelshoes-eg.com/
